FUNDING OPPORTUNITIES FOR INNOVATIVE SCIENTISTS WORKING IN LIVESTOCK, POULTRY & SHRIMP FARMING

Pakistan Science Foundation (PSF), the apex body for promotion and funding of Scientific Research, is striving for scientific development in the country. Under its Natural Sciences Linkage Programme, the Foundation is providing financial assistance to the scientists working in Natural Sciences and Agriculture.

In line with the vision of the Government, Concept Papers are invited from the Scientists/Technologists working in the field of Livestock, Poultry and Shrimp Production/Farming including fodder & feed issues to enhance productivity with the aim to boost National Economy.

The proposed research should:

- i) Address genuine hindrance(s) in productivity or export and suggest feasible solution(s) in Livestock/Poultry/Shrimp Farming
- ii) Have potential for commercialization/utilization of research findings
- iii) Have a progressive farmer as Private partner for on-farm research and demonstration of Research Results
- iv) Have socio-economic impact on the farmers and public at large

After scrutiny, the Principal Investigators (PIs) of the selected concept papers will be invited to submit full length proposals which will go through the PSF-NSLP standard review process before funding.

Please Note

- Do not send full proposal, only concept papers will be entertained at this stage. Format of Concept Papers for NSLP Funding can be downloaded from <http://psf.gov.pk/downloads.aspx>
- Please email concept paper to nsfp.psf@gmail.com as attachment, no hard copy will be entertained
- All the files attached with email should be in MS Word format only
- Incomplete and sketchy concept papers will not be considered

Dead line for submission of concept papers is 28-02-2019.
